- Border Opacity 10

How many imbalances close to each other count as a zone = 3 or more

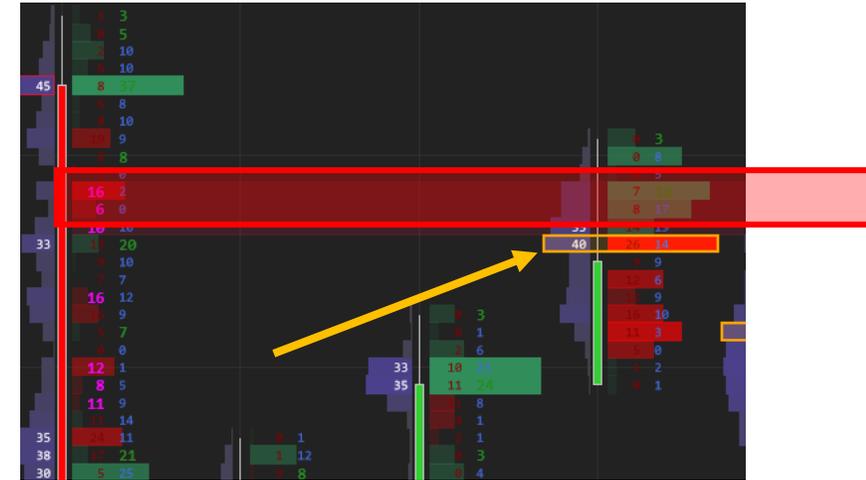

3 or more imbalances one after another = imbalance zone

3 or more imbalances one after another = imbalance zone

04. Imbalances – close and hide options

The zone is not closed and continue to the right because another candle's POC not yet crossed the zone

When to keep or close zones – at the session brake

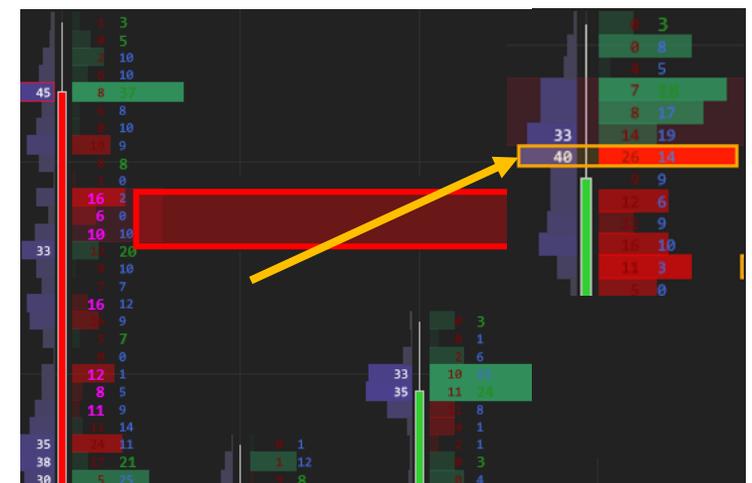

Show all historical zones or hide historical zones and keep only last current zones

Closed (ended) zones options:

A zone is closed if crossed by:

- another candle's POC – point of control
- or by price line

The zone is closed because another candle's POC crossed the zone

04.Imbalances

- Show Imbalances
- Imbalance Ratio (%) 210
- Buy Color ForestGreen
- Sell Color Magenta
- Font size increment 2
- Show S/R zones
- End of session break
- Show historical zones
- Zone Close PocCross (dropdown menu open, showing PocCross and PriceCross)
- Number of imbalances 3
- Zone Opacity 15
- Hide distance, px 5
- Zone support Color ForestGreen
- Zone resistance Color Crimson
- Show S/R zone border
- Border Opacity 10

Hide distance 5 px –

Zones are hidden if chart horizontally compressed and space between bars is 5 pixels or less
